

Operator Services - International

This Section contains charges for calls through the 155 International Operator Service to overseas countries (with the exception of calls to the Irish Republic, which can be found in the **UK Operator section** of this Price Manual), Inmarsat services and Global Mobile Satellite systems. In addition details are also given of other services available through the International Operator, these include advice of the duration and charge of a call, collect calls, person-to-person calls and international call connection services.

There is no charge for making a call to the 155 operator, charges only apply when the services described in this Section are requested.

Operator-connected calls generally have two parts: an operator service charge, which is a fixed amount for each call, and a call charge based on the type of call, when it is made and how long it lasts. This section describes the call charges.

Call durations are measured to a fraction of a second and the call charge is rounded to the nearest 10th of a penny. The timed duration of a call includes the time element for setting up and disconnecting the call on the BT network.

All charges which appear on a KCOM customers bill for calls made via the International Operator are calculated by BT according to BT's published tariffs, BT advise KCOM of the amounts to be included on customers' bills. It should be noted that, due to BT's prices rapidly changing, the charges billed for these calls may not be precisely in keeping with the prices shown in this Price List. However the charges billed will be the BT standard tariffs for the services charged by BT at the time the services were provided. Customers with queries about any of these charges should contact KCOM Customer Care.

The information contained within this section is extracted from BTs' website which can be found at:

Person-To-Person Calls - Service withdrawn 29th March 2005

International Call Connection (Station-To-Station Calls)

The operator connects the caller to an overseas number.

Eligibility

- This service is available from KCOM ordinary lines and KCOM payphones for calls to most parts of the world, including countries where International Direct Dialling (IDD) is not available. Calls can also be made to Inmarsat, European Mobile Satellite, International Universal Personal number range (00 87810) and Global Mobile Satellite numbers, but not from payphones.

Pricing Information

- The operator service charge is £4.255 Ex VAT (£5.11 Inc. VAT) and is added to the call charge.
- There is no charge if the call cannot be connected.

Special Assistance International Operator Call Charges

This Section contains charges for calls through the 198 Special Assistance International Operator Service to overseas countries, Inmarsat services, International Universal Personal number range (00 87810) and Global Mobile Satellite systems. It does not include calls to the Republic of Ireland.

Customers (e.g. Disabled Customer who cannot dial or have difficulty dialling their own calls and need assistance) may use the BT Special Assistance Operator to connect calls to many destinations. Operator Controlled call charges for such customers are different from those calls made via the 155 Operator Service.

There is no charge for making a call to the 198 Operator. Charges only apply when the services described in this Section are requested.

Charges for calls made through the Special Assistance Operator service are shown in this Part.

Eligibility

The 198 Special Assistance Operator is for Disabled Customers who cannot dial or have difficulty dialling their own calls.

Pricing Information

Non-Payphone call charges are for each minute or part of a minute with the exception of calls to the Iridium and Thuraya services where the minimum fee is £1.50 (Ex VAT)

Payphone call charges are for each minute or part of a minute.
