Fair usage policy applies on unlimited tariffs

Other call charges

Out of bundle calls to UK landlines and non O2 mobiles (incl. Jersey, Guernsey and Isle of Man)	33p per minute
Calls to Europe	8p per minute
Out of bundle data	2.5p per MB
Service numbers operator access charge (08*, 09 & 118)	37p per minute

*0800 numbers are free

03 Numbers - Ofcom has introduced 03 numbers as an alternative to chargeable 08 numbers e.g 0870. Calls to 03 numbers will cost the same as other standard fixed line numbers (starting 01 or 02), and are included as part of the bundled minute allowance.

International

O2 Travel - All the data you need in Europe for £1.66 a day.

How it works

- **Data** - Customers are only charged £1.66 (ex VAT) for the days that they use data in Europe. There's no upper usage limit, but traffic management steps apply (means your data speeds will be reduced after 50MB), and their daily data charge will apply from midnight to midnight UK time
- **Calls** - Customers will pay just 41p to make or receive a call, and then it's free to talk for up to 60 minutes. After 60 minutes standard UK out of bundle rates apply (30p per minute RRP).
- **Texts** - Texts are 3p to send and free to receive.

Worldwide 24 hour data bolt on – Up to 200MB of data for just £7.50 a day

For occasional trips abroad, our Worldwide 24 hour data Bolt On gives customers up to 200MB of data (dependant on country) to use outside of Europe on their phone over a 24 hours period. Not until the clock strikes midnight, but a full 24 hours. And it costs just £7.50. Some key facts to note are:

- Your data travels with you between countries pro rating itself if you enter a different zone
- You're only charged when you start using data, in fact only after 50kbs have been used
- Data expires 24 consecutive hours after a customer starts using data while abroad, or if the customer uses all the allowance (whichever is first)
- Customers receive data usage notifications at 80%, 95% and 100% so they're always in control.
- If a customer continues using data after 100% of their current data bolt-on is used, then they will be charged another £7.50 for a further consecutive 24 hours of data usage
- No tethering to laptops or tablets is allowed.
- Compatible with O2 Travel (Europe) bolt on

Worldwide data bolt on (30 day) – Up to 2GB of data for just £99 a month

For regular travellers our Worldwide data Bolt On gives customers up to 2GB of data (dependant on country) to use in any country with a data network over 30 consecutive days. It's a truly worldwide proposition, giving complete flexibility. Use a little data today in Canada and a lot next week in India. It's the customer's choice. And it costs just £99.

Some key facts to note are:

- Your data travels with you between countries pro rating itself if you enter a different zone
- You're only charged when you start using data, in fact only after 50kbs have been used
- Data expires 30 consecutive days after a customer starts using data while abroad, or if the customer uses all the allowance (whichever is first)
- Customers receive data usage notifications at 80%, 95% and 100% so they're always in control.
- If a customer continues using data after 100% of their current data bolt-on is used, then they will be charged another £99 for another Worldwide data Bolt On
- Tethering to laptops or tablets is included
- Not compatible with O2 Travel (Europe) bolt on

For full information on travel zones visit www.o2.co.uk/business/worldwide where all the zones are updated on a regular basis.

All pricing quoted is Ex VAT.
