

Lightstream Bundles - Not available for new supply

1. Introduction and Summary

The KCOM Lightstream service brings together your phone and superfast broadband, in one convenient bundle, on a single bill. This document shows details of Lightstream bundle services.

2. Service Description

Based on fibre optic technology, KCOM Lightstream provides superfast internet access with FTTH technology, where possible. There are two types of fibre services that KCOM use:

- **Fibre to the Home (FTTH):** This carries the fibre all the way into your home; and
- **Fibre to the Cabinet (FTTC):** Sometimes called 'VDSL' this is where fibre is connected to the nearest distribution 'cabinet' and from there to your house, using a copper line. As such the speed cannot be guaranteed end-to-end, and is quoted in a similar way to standard broadband as an 'up to' speed. This technology is able to support up to 75 Mbps.

Wherever possible, KCOM use Fibre to the Home (FTTH) technology to enable Customers to enjoy the best available speeds.

3. Pricing

Prices detailed below are inclusive of VAT. Discounts are available for payment by Direct Debit and Online Billing, both of which provide convenience and control to our customers.

4. Contract Term

The standard contract length is 18 months for Lightstream Bundles. Flexible contract options are available for an additional charge, and Early Termination Fees apply. Please see *Service Options* and *Additional Charges* sections of this document.

5. Connection Charges

Lightstream Home Unlimited
Inc. VAT
£50.00

Connection charges are a one-off charge at the commencement of your contract. KCOM offers the facility to pay an initial connection charge in equal instalments over the first 4 monthly bills. Please ask for details.

6. Installation Options
